Brief Introduction

Universal College of Medical Sciences (UCMS) is an educational/health organization promoted by a group of highly reputed Nepalese dignitaries having high social standing and managed by experienced and dynamic professionals. College was established in the year 1998 to provide outstanding teaching, excellent patient care and high quality research in health sector. The college has introduced a unique way of teaching/learning in the field of medical education in national and international arena. The college has started four educational units to impart multidisciplinary medical and allied health science programs. The college aims to be a full-fledged health institute with world - class health services and par excellence health education.
